**SUBJECT:** **COUNTY OF SANTA CRUZ LCP AMENDMENT NO. SCO-1-04 (Code Cleanup) CERTIFICATION REVIEW:** Concurrence with the Executive Director's determination that the action of the County of Santa Cruz accepting the Commission's certification of LCP Amendment No. SCO-1-04 (Code Cleanup) is legally adequate. For Commission review at the meeting of November 16, 2006 in Huntington Beach.

## **A. BACKGROUND**

The Commission acted on County of Santa Cruz LCP Amendment No. SCO-1-04 (Code Cleanup) on August 10, 2006. The majority of the changes in the amendment included correction of typographical errors, clarifications, and text corrections. Additionally, amendments to the Zoning Implementation Table (Section 13.10.170(d)) proposed to change the kind of combining districts that can be used to implement the land use designations contained in the Land Use Plan. The Commission rejected the amendment as submitted but certified the proposed amendment to the LCP if modified to:

- Correct additional typographical errors;
- Delete the "Public Facilities" zoning district from the portion of Table 13.10.170(d) that would allow any land use designation other than agricultural lands to be rezoned to "Public Facilities" without an LCP amendment;
- Ensure that the proposed amended text is consistent with other recently certified implementation plan amendments;
- Include the entire definition of "aquaculture" as defined in Section 30100.2 of the Coastal Act; and
- Ensure that single-family residential development meets all applicable LCP requirements.

## **B. EFFECTIVE CERTIFICATION**

On October 3, 2006, the Santa Cruz County Board of Supervisors held a public hearing and adopted a resolution that acknowledges receipt of the Commission's resolution of certification, accepts and agrees to the Coastal Commission's modifications, agrees to issue permits in conformance with the modified LCP, and formally approves the necessary changes to the County's LCP. This Resolution is attached as Attachment A.

As provided in Sections 13544 and 13544.5 of the California Code of Regulations, for the amendment to become effective, the Executive Director must determine that the County of Santa Cruz's actions are legally adequate and report that determination to the Commission. Unless the Commission objects to the determination, the certification of County of Santa Cruz LCP Amendment No. SCO-1-04 (Code Cleanup) shall become effective upon the filing of a Notice of Certification for the LCP amendment with the Secretary of Resources, as provided in Public Resources Code Section 2180.5(2)(V).

## **C. STAFF RECOMMENDATION**

Staff recommends that the Commission concur with the determination of the Executive Director that the action of the County of Santa Cruz accepting the Commission's certification of County of Santa Cruz LCP Amendment No. SCO-1-04 (Code Cleanup) is legally adequate. A draft letter to the County informing them of this determination is attached as Attachment B.

Subject: ***Effective Certification of County of Santa Cruz Local Coastal Program  
Amendment No. SCO-1-04 (Code Cleanup)***

Dear Glenda,

We have received County of Santa Cruz Resolution Number 324-2006 adopted by the Board of Supervisors on October 3, 2006. By those actions, the County acknowledged receipt of the Coastal Commission's approval with suggested modifications of Local Coastal Program (LCP) Major Amendment 1-04, and incorporated the Commission's suggested modifications into the County's LCP.

I have determined, and the Commission has concurred, that the County's action with respect to LCP Major Amendment 1-04 is legally adequate to satisfy the requirements of Section 13544 of the California Code of Regulations. This determination was reported to the Coastal Commission at the Commission's November 16, 2006 meeting in Huntington Beach. As a result, the County's LCP, as amended by LCP Major Amendment 1-04, was certified as of November 16, 2006 and is now in effect.

If you have any questions, please contact Susan Craig of my staff at (831) 427-4863.

Sincerely,

Peter M. Douglas
